

Two new imagers for agarose gels have been installed, one in room 3028 at CBI and one in room 3021 at IICS The images will be saved on a shared folder, you can retrieve your files by connecting from any workstation at the following address:

PC :

```
\\samba-nugenius.igbmc.u-strasbg.fr\ICS_3021  
\\samba-nugenius.igbmc.u-strasbg.fr\CBI_3028
```

MAC :

```
smb://samba-nugenius.igbmc.u-strasbg.fr/ICS_3021  
smb://samba-nugenius.igbmc.u-strasbg.fr/CBI_3028
```

For more visibility, you should rename your saved images. Remember to download your files, they will be automatically deleted from the shared folder after two weeks.

Please find here a [YouTube link](#) for its use
